"Über den Autor und weitere Mitwirkende Aaron Ploetz Aaron is the NoSQL Engineering Lead for Target, where his DevOps team supports Cassandra, MongoDB, and Neo4j. He has been named a DataStax MVP for Apache Cassandra three times, and has presented at multiple events, including the DataStax Summit and Data Day Texas. Aaron earned a B.S. in Management/Computer Systems from the University of Wisconsin-Whitewater, and a M.S. in Software Engineering from Regis University. He and his wife Coriene live with their three children in the Twin Cities area. Devram Kandhare Devram has 4 years of experience of working with SQL database MySQL and NoSql databases MongoDB and Dynamo db. Worked as database designer and developer. Developed various projects using agile development model. Experienced in building web based application and REST API. Sudarshan Kadambi Sudarshan has a background in Distributed systems and Database design. He has been a user and contributor to various NoSQL databases and is passionate about solving large-scale data management challenges. Xun (Brian) Wu Xun (Brian) Wu has more than 15 years' experience in web/mobile development, big data analytics, cloud computing, Blockchain, and IT architecture. Xun holds a Master degree in computer science from NJIT. He is always enthusiastic about exploring new ideas, technologies, and opportunities that arise. He always keeps himself up-to-date by coding, reading books, training, and researching. He has reviewed more than 40 Packt Publishing books."
